

# SCHOOL-BASED ASTHMA MANAGEMENT

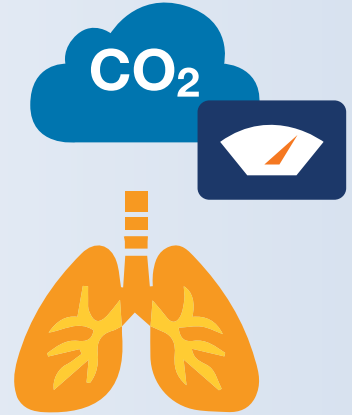

## The Concerns:

- Poor Air Quality in Riverside County.

**15%** of children in urban areas are living with undiagnosed asthma.

- Parental perception that chronic cough is normal for children.

## The Solution:

- Screening, referral to medical home, and theater-based education
- Training of parents and caregivers in asthma management
- Distribution of cleaning supplies kits

## The Impact:

**16,500**

Parents trained by community health workers/promotores.

**69%**

Reduction in Emergency Room (ER) visits!

**96%**

Improvement in asthma management.
