

Time to Heal Lyrics in English

Time to live
Time to heal
Time to move on
Time to build
Juntos, adelante
No fear
That's where we go from here

Time to live
Time to heal
Time to move on
Time to build
Juntos, adelante
No fear
That's where we go from here (where we go)

Think about all we endured this year
But we still had hope
to overcome fear
As our smiles return and
we wipe the tears
The question is where do
we go from here?

Time to live
Time to heal
Time to move on
Time to build
Juntos, adelante
No fear
That's where we go from here (go from here)

Time to live
Time to heal
Time to move on
Time to build
Juntos, adelante
No fear
That's where we go from here (let's go)

You know what time it is
Time to live
Time to heal
Time to move on
Time to build
Juntos, adelante
No fear
That's where we go from here (go from here)

Face the facts
Here's the reality
The virus hit the hardest
in our communities
Black and brown
From my town to your town
If we work together
We can turn the tide around

So many questions for what's next
So many options for what's best
From social distance and
mask protection
To understanding the vaccination

Time to live
Time to heal
Time to move on
Time to build
Juntos, adelante
No fear
That's where we go from here (go from here)

Now I'm in line for the vaccine
I think of everything I've seen
And I don't wanna lose one more
I'll do it for the ones I
love that's for sure

They say recovery's a long road
Lets go hand in hand so
we don't journey alone
Rebuild the community
We're looking for healing
As the fog from dark days
is finally clearing

You know what time it is!

We are in this together
It's now or never
Work towards change for the better
Same struggle and the same dream
Hermano you are my team
You know what time it is

Now the world opens up again
Let's all be accountable
to family and friends
Let's make a new normal
a healthy reality
Physical, emotional and
mental clarity
